The Origin of H & H Studios

Pen & Ink Profiles

Bob Hitz' pen and ink scale drawings are known for detailed accuracy and for the quality of the final product. H&H Studios has been in business since 1975, when it started with drawings of fish and fish boats as part of Bob's profession as a marine biologist. Since then, H & H Studios has grown to include an archive of Coast Guard, NOAA, and Navy vessel illustrations.
